## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-5 and 11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either the United Kingdom patent ('652) or the European patent ('651).

3. Claims 1-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Kamio. Clearly the fins, as shown in Figure 24, when in the closed position cannot completely

cut off wind blown out from the air outlet since applicant indicates that the shutter valve does that, see paragraph [0083]. Thus, the screen is characterized with openings for permitting some airflow there through as claimed.

***Claim Rejections - 35 USC § 112***

4. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The vanes being mounted behind the screen is misdescriptive since the vane is the screen.

***Specification***

5. The disclosure is objected to because of the following informalities: As in the indefinite rejection above, references to the vanes being mounted behind the screen in the specification must be corrected.

Appropriate correction is required.

***Priority***

6. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
